

Stomach Distress

Gas and Sourness Vanish

What's the use of always feeling miserable just because your stomach isn't behaving itself? Don't you know that scores of thousands of people have changed bad stomachs into perfect working ones by the simple method of swallowing one or two little MI-O-NA stomach tablets after each meal?

MI-O-NA is compounded from the formula of what is probably the best prescription for indigestion and upset stomach ever written. The Lee & Osgood Co. guarantees it. It relieves distress in five minutes, but better still, it removes the cause of misery in a few days.

Large box 50 cents at The Lee & Osgood Co. and druggists everywhere.

PONEMAH NIGHT

OBSERVED AT Y. M. C. A.

Over 100 Were in Attendance and Enjoyed Interesting Programme.

Ponemah night was observed on Wednesday evening at the Y. M. C. A. with a special programme given for the men in the Ponemah mill at Taftville, who had been specially invited. Over 100 of them responded and enjoyed the programme given in the gymnasium, beginning at 8 o'clock. The committee in charge for the evening consisted of M. J. Waldron, D. Murphy, J. E. Benoit and George Barlow.

The programme began with a tug-of-war between two five men teams from weave shed No. 1 and weave shed No. 2, in which the No. 1 team proved speedily winners and an enthusiastic reception for the form they showed. This was followed by an interesting ten minute exhibition bout of wrestling between Jack Monty and Young Colburn, with Neil Crowley as referee.

Kristek and Malcom followed with a clever exhibition of hand balancing, and a basketball game between weave shed No. 1 and weave shed No. 2 wound up the athletic part of the programme. This was won by the No. 2 team by the score of 15 to 4. The lineup:

Weave shed No. 2—Potter, C. Fontaine, Jr., Coyt, H. Stanley, G. Pilling, Jr., Weave shed No. 1—Edholm, C. Bear, Jr., Larkin and Lambert, H. Jacques, Jr., Crowe, Jr.

Doughnuts and coffee were then served upstairs at the office counter, while a short programme was rendered by the Wheel club orchestra of eight pieces.

Party of 14 From Here.

There was a party of fourteen from the local telephone office who went to Williamstown on Wednesday evening to attend the big given by the telephone employees in the town hall there. The trip was made by auto through the courtesy of the A. C. Swan Co.

ROUGH, SCALY SKIN

Little Patches That Peel Off and Form Again.

Try This Remedy at Our Risk. Most skin diseases are eruptions accompanied by itching. But there is another kind in which small patches of scales appear and fall off, following by another crop. This may spread all over the body and become almost incurable.

A soothing application of Saxon Salve, our new skin remedy, should be made. This is very healing and penetrates through the outer layer of skin to the very seat of the trouble, destroying the germs.

Treated in this way, as directed by the book in the box, the scaly patches disappear and are replaced by smooth, healthy skin. Saxon Salve is wonderfully healing and soothing in all forms of skin diseases, eczema, larber's itch, ringworm, etc., and we guarantee it to satisfy you, paying back your money if it does not. Broadway Pharmacy, G. G. Engler, Norwich, Conn.

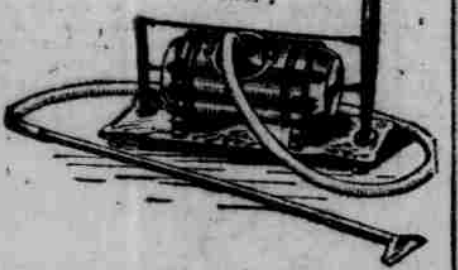

Starts Much Trouble.

If all people knew that neglect of constipation would result in severe indigestion, yellow jaundice or virulent liver trouble they would soon take Dr. King's New Life Pills and find it's the only safe way. Best for biliousness, headache, dyspepsia, chills and dizziness. 25c. at The Lee & Osgood Co's.

DON'T MISS IT

The Demonstration of THE REGINA

PNEUMATIC CLEANER

at our store Wednesday and Thursday of this week.

The REGINA PNEUMATIC HAND CLEANER is very well known locally as the most easily operated and the most efficient of hand cleaners. Once introduced in this section they have sold with little effort on our part because of the recommendations of satisfied users to friends and neighbors. COME TO THE DEMONSTRATION and see the Regina Hand and Electric Cleaners in Actual Use.

CHURCH OF THE GOOD SHEPHERD

Services Will Now be Held Therein by Universalists—
Handsome Memorial Windows, New Organ and Other Gifts.

With the dedication over, everything is ready at the Church of the Good Shepherd for the holding of services, and for the first time since the summer recess the Universalists now have a place of worship, which, after being seen both inside and out, has called forth many complimentary expressions.

The handsome stone church, with all its furnishings, costing but little less than \$40,000, was built by Contractor C. Morgan Williams. It is of old English style of architecture, with a porch at the side, where the entrance is. The building has a frontage of 44 feet and runs back 115 feet. The front part of the church, on the right at the entrance, is the Sunday school room, while on the left is the auditorium, the primary room being between the two. The seating capacity of the auditorium is 500, but all three rooms can be thrown together to accommodate 600. The pulpit is at the west end. The church has been attractively furnished, there being a large entertainment room with stage in the basement, with parlor, kitchen, men's room and boiler room all provided for.

New Organ.

Situated at the back of the platform is the new organ, the case being of quarter oak, the pipes being gilded and finished in gold bronze. All these front pipes, as well as those over four feet in length, are of heavy annealed zinc. The other pipes are of a position of pure tin and lead, and the diapason pipes are of specially prepared heavy metal.

The action is tubular pneumatic throughout, and arranged and constructed so as to give the fullest access for adjustment. The wind chests are pneumatic with an individual valve and pneumatic for each pipe. In the great organ the open diapason, dulciana, melodia and flute d'amour have 61 pipes, and in the swell organ the open diapason, stopped diapason and calliope have 73 pipes, vox celestes 81 pipes, aeoline flute harmonic and oboe 73 pipes.

The organ has of course been properly adjusted to the acoustic conditions of the church. It is a fine voiced instrument of two manuals and pedals. It is blown by an electric blower. There are three pistons under each manual, for the adjustable combinations, and they operate on the desired stops of the organ. Included in the accessories are balanced swell, tremolo, crescendo indicator, balanced crescendo, great to pedal reversible and wind indicator.

Baptismal Font.

A handsome baptismal font of white marble, which will be placed near the pulpit, has been presented to the church by Mrs. Thomas Potter in memory of her husband's family. Mr. Potter's grandfather, Rev. Thomas Potter, was one of the early pastors of the Universalist church. Cut on the front of the font are the initials I. H. S.

Memorial Windows.

Throughout the church there are 25 windows of various sizes and all are of important glass. There are three windows in the vestibule, these being in memory of the Champin, Walker and Greenhalgh families.

COMMISSIONER GUNSHANAN

FAVORS VICINITY OF NORWICH.

Sanatorium Here Would Be Central for Eastern End of the State.

Commissioner John Gunshanan was here on Tuesday, before and after his address in New London in the evening. He was in conference with officials of the local Anti-tuberculosis association regarding the work being done. He favors locating the sanatorium in this vicinity, as he has previously stated, and considers it central location for serving both New London and Windham counties, as it is easily reached in all directions by steam and trolley roads.

At New London Tuesday evening organization was effected to provide a fund for helping tuberculosis patients. At New London the question was asked if any site had been chosen for the location of the sanatorium. Mr. Gunshanan said that none had been offered the commission for the purpose near New London and Norwich. Several of these sites were ideal. They were located near Norwich. Personally he was in favor of locating the sanatorium near Norwich, as being removed from salt water and air, which is hardly, in his opinion, conducive to the cure of consumption.

He stated that Tuesday afternoon he had been in Montville looking over sites. He thought that Montville, being between the two largest cities in the county, from which probably most of the patients would be secured, would be suitable. Montville was about six miles from the salt air, but he thought was far enough removed for the location of a sanatorium.

WILL TEST SAMPLES OF NAVAL STATION COAL.

Fifty Tons from Each of Three Bins to Be Taken to Annapolis.

United States navy collier Sterling came to New London Wednesday to remove to Annapolis samples of coal which have been stored at the naval station up the Thames, to determine the most advantageous way of keeping coal. The Sterling will take back 150 tons of coal. This will be deposited at the school of engineering of the naval academy, where tests will be made to determine its stowage and burning value.

Last January a large quantity of coal was brought to the naval station and stored in three ways. One lot of coal was binned under water for the purpose of proving or disproving the theory that water preserves the combustible quality of fuel. Another lot was covered under cover in the great concrete bins. A third quantity was stored in the open air.

Fifty tons of each assortment of coal will be added into separate holds on board the Sterling. This will be subjected to analysis, samples having been analyzed before the coal was exposed to the varied conditions nearly a year ago. A practical test under the eyes of the engineers will be to fire torpedo boat destroyers with the coal at different times and observe the intensity of heat to be derived from each sample. Many civilian engineers as well as naval engineers are interested in the outcome of the tests.

There are few beggars in Switzerland, and two-fifths of the adult population have deposits in banks.

DIED.

WILLIAMS—In Williamstown, Nov. 21, 1911, Henry S. Williams, Jr., aged 63 years. Burial Yantic cemetery this (Thursday) afternoon on arrival of 11:52 train.

There are two large windows on each side of the auditorium, these being 106x150 inches in size. The window on the south side is in memory of the families of Sebastian B. Keppeler and David T. Ruby. The central emblem of this window is the cross and crown. One side of the emblem has A and on the other side O, meaning Alpha and Omega.

In the window on the north side the central emblem is a dove with extended wings, a cup and a star, the star being on either side. This window is in memory of George Webster Gould and Abby Loveland Gould.

In the front of the church the window is the same size and emblematic of the name of the church. It represents Christ as the Good Shepherd with a typical eastern landscape, while at His feet is a flock of sheep and a lamb in His arms. This window is in memory of Charles Tracy, who for twelve years previous to 1886 was superintendent of the Sunday school. The window is in the Sunday school room and faces the street.

There are eight other windows in the Sunday school room, and in memory of past superintendents or faithful friends of the school. The windows are 40x48 inches and are in memory of the following: Theodore E. Albertson, superintendent seven years; Benjamin Balfour Whittemore, superintendent 11 years; Charles Henry Dillabey, superintendent 11 years; Charles E. Woodworth, superintendent 11 years; Harriet Grant Perry, teacher in primary department for 30 years; Elizabeth Ann Holt, teacher in primary department for 20 years; Jennie Holt Peckham, Nancy Fanning Albertson, William Tubbs, Lucy Wood Tubbs, Benjamin Marvin, Eliza Marvin.

Other gifts to the church include the aisles of the auditorium are carpeted with red velvet carpet, the three aisles and the passageway at the back and front of the seats being thus covered, making a very pretty effect in contrast with the light finish of the interior.

The Sunday school rooms are carpeted with an attractively designed linoleum, this having been given by Mrs. Edwin A. Tracy, who also gave the framed picture of the old church which hangs in the Sunday school room.

Other gifts to the church include the Pulpit, by Mrs. William H. Cardwell in memory of Mrs. Nancy Chesbro; hymnal board, by the Albertson descendants; clock in ladies' room, by Sabara S. Stocking; new hymn books and new service books, two to each pew and for choir and pulpit, by Chauncey E. Woodworth; framed picture hanging in the Sunday school room, by Mrs. G. A. Keppeler's Sunday school class.

The carpets in the church and Sunday school rooms were furnished by N. S. Gilbert & Sons, electric lighting was by Eaton Chase Co. and the heating by J. P. Barstow & Co.

The church is brilliantly lighted by electricity, there being four chain chandeliers hanging from the ceiling, each containing a bunch of lights, while at either side of the pulpit are bracket lights.

The pulpit is of attractive design, being of oak, on which there is an electric reading lamp.

MOTION TO HAVE VERDICT SET ASIDE.

Claimed That \$350 in Case of Gallup vs. Campbell is Entirely Inadequate.

In the superior court room on Wednesday afternoon, while the jury was out considering the case of Knowles vs. the Industrial Trust company, etc., the motion for the setting aside of the verdict and the granting of a new trial in the case of Gallup vs. Campbell, in which a verdict for \$350 was given last week, was argued.

In behalf of the motion Attorney Donald G. Perkins held that the verdict was wholly inadequate, and he claimed that the court should be set aside for inadequacy as well as for excessive damages. He also claimed that the court ought to limit a new trial to a question of damages, as all findings by the jury were in behalf of the plaintiff. In case of the denial of the motion for the setting aside of the verdict, he had filed a motion that the judge triple the damages asked, which he intimated would be accepted.

Attorney Thomas of New Haven, for the defendant, opposed the granting of the motion to set aside, holding that the jury had determined the amount of damages the plaintiff should receive, evidently fixing the sum between \$100 and \$350 as the amount that should be received for pain and suffering, inasmuch as Dr. Tingley had testified that his services were worth \$100 to \$125. If the verdict was set aside, he should be back for another hearing on its merits, he claimed, and he held that the rule for trebling damages did not apply to such a case. The judge took the papers.

OBITUARY.

John W. Norris.

John W. Norris, a retired member of the New York police force for the last eight years, passed quietly away at 4:30 p. m. Wednesday at his home, No. 221 Broad street, following a serious illness with a complication of heart and kidney trouble, from which he had been suffering for the last ten weeks. Ever since his retirement from active service he had been in poor health and an invalid at times, although able to get out of the house, but his condition had only recently become serious.

Mr. Norris was born in Ireland 63 years ago, losing his parents when a small boy, and coming here in his early teens to live with an uncle in Greenville. He was a resident of this city for about 50 years. For a number of years he was employed at the bleachery in Greenville, working in the shipping office, and following this he became a member of the Norwich police force, where he had term of service of close on to 20 years. He was first on a Greenville beat with Captain Linton, then served on the Washington street beat, and finally for many years on the West Side. He was serving on the West Side when he retired from the force about eight years ago.

Mr. Norris was united in marriage 39 years ago in October in St. Mary's church to Catherine Mary Spelman, who survives him, and has been in constant attendance upon him in his final illness. Six children also survive, Walter of Providence, R. I., John J. of Portland, Ore., Jeremiah F. of this city, James S. of Omaha, Neb., Mrs. Albert F. Lash of Danielson and Mrs. James J. Dutton of this city. He also leaves six grandchildren and two nieces. Mrs. John Watts of San Francisco and Sister Mary Celestine, who is a nun in a convent at Omaha, Neb. Mr. Norris was the last of his immediate family.

He attended St. Patrick's church and had been a member for a number of years of Court City of Norwich, No. 63, Foresters of America. In his long service on the police force Mr. Norris was known as a faithful and efficient officer, courageous and careful in the discharge of his duties and deserving the confidence of his superior officers and the public in the way his work was performed. He was widely known and well liked and there will be many to regret his loss. His interests were in his home, where he was a loving husband.

band and a kind and indulgent father, whose passing away will be a heavy blow to his immediate family.

Miss Maud U. Pink, aged 20, died at the home of Mr. and Mrs. Charles H. Haskell on Lincoln avenue at 5 o'clock Wednesday afternoon. She had been in poor health for several months, but was seriously ill only a short time.

She was born Dec. 29, 1891, in Leicester, Middlesex, England, the daughter of Charles R. and Rosetta Leach Pink, by whom she is survived. She came to Norwich two years ago and has since resided with Mr. and Mrs. Haskell. She attended the Baptist church. By her bright, cheerful ways she made many friends by whom her death is deeply mourned. The only relative surviving in this country is a sister, Miss Violet Pink, of New York.

PRICE OFFERED FOR MILK.

Manager Darling of Providence Dairy Company Tells of Offer.

Concerning the offer of the Providence Dairy company to milk producers, Manager S. E. Darling states that

the company offered and agreed to pay 45 cents per ten-quart can of milk delivered on their car. As a result of that offer, he says that they have met with very good success and many of the producers prefer to send to them at that price. It is understood that the company will take all the milk produced daily, seven days in the week, until May 1, 1912, with no shutoff.

JUNIOR Y. M. C. A. POOL.

Vetter is Leading With Only One Game Lost.

In the junior pool tournament at the Y. M. C. A., which is to be closed by the first of December, Vetter is now leading, having lost only one game in fifteen, and he has three more to play. A. Heneault has finished his games and is second, while W. Stanley, who has five to play yet, is third.

There are 20 in the tournament, and the standing of the leaders is as follows: Vetter, won 14, lost 1, percentage 93.3; A. Heneault, 15-3, 83.3; W. Stanley, 10-3, 76.9; Millard 12-4, 75.0; J. Hull 9-5, 81.8.
